

said he had been greatly flattered by that offer and still had it under consideration. He would welcome an opportunity of joining in the fight against the House of Lords in that constituency, but his business interests here made it very difficult for him to get away for any considerable length of time. He would reach his decision shortly.

WAS IT DELAY OR MISADVENTURE

While it may be quite possible that no official of the city of Edmonton is to blame, it seems an unfortunate circumstance that winter is upon us with a great deal of the city work in an unfinished state.

The residents of the upper end of Namayo Avenue will have to go through a winter with their street practically impassable and the street railway department unable to use the middle section, which is completed, because some specials are not yet in place.

The east end extension of the street railway system cannot be operated because there are no turn-outs and the long run from Sixteenth to the E. Y. & P. track would disrupt the service on Jasper.

The Namayo ditch sewer is not completed, the sewers under way in the west end are right in the middle of construction, the power house requires some work on it yet and the pump house has not been brought to the state of temporary reconstruction which was intended to tide over the winter.

While the cause of the whole delay may have been the result of a conspiracy of circumstances over which the faculty in the city hall had no control, the effect is just as inconvenient to the citizens as though it had been brought about by dilatory methods which ignored the clock and the calendar and expected the summer to last to a green Christmas.

During the municipal elections, which are now not far away, the citizens are likely to ask questions just to find out whether it was delay or misadventure.

SUPPRESSING THE FIGHT PICTURES

It commences to look as though there is a good deal of misapplied energy being wasted in the suppression of the fight pictures in Western Canadian communities.

In Regina the other day the Attorney-General of the province issued a mandate as a result of which the Jeffries-Johnson films were suppressed, and now the manager of the opera house is entering an action for damages.

In Brandon preachers made it the topic of a Sunday sermon and delegates from different reform organizations besieged the mayor, while a petition with six hundred signatures was presented to His Worship, with the result that the pictures were stopped but thoroughly advertised.

From the efforts that are made to suppress the pictures one might come to the conclusion that some horribly corroding influence on the body politic was let loose every time the pictures were shown.

But as a matter of fact, do the pictures really amount to anything?

The fight pictures were shown in Edmonton and the incident was closed without a tremor. The attendance was not large and it is reasonably safe to say that most of those who attended were not injured except in proportion as they were disappointed at the show they got for their money. The day after the picture men left town they were as completely forgotten as the most ordinary melodrama that treads the boards.

Characters like Johnson and Jeffries are of but passing fame. Like a popular song or a sensational story they quickly wear out. That section of the public who happens to go in for that sort of thing soon tires of a single idol or even of a single amusement. The quickest way to kill the fight pictures is to let the mercenaries who peddle them loot the easy ones who are prepared to give up their dollar for a look at an imitation exhibition of a brutal sport. The craze will pass as quickly as a summer storm, if allowed to run its course. The man who has a wild desire to see the pictures will not be made worse by having seen them. He is already imperfect.

CALGARY'S ELECTED COMMISSIONERS

Down in Calgary they have an elected commission and an elected city council. The councillors in the last days of their power are proposing to change the system and make the commission appointive instead of elective. Two of the leading newspapers of Calgary have already attacked the council on the grounds that their action is undemocratic and that it proposes to take from the citizens a right of se-

lection which is properly theirs and not of the council, something which they regard as dangerous.

The argument of the Calgary papers reads well but it is not sound.

The system of electing commissioners had its inception in Des Moines. In that city the corporation owns no utilities. The commissioners elected do merely such ordinary duties of a city council as are usually attended by the council body in a community such as the old-fashioned one of eastern Canada, where the board of works has nothing more important to engage its attention than the extension of sidewalks, sewers and street grades. As evidence that this is correct, note the fact that the greatest achievement advertised in the publicity literature of Des Moines is the successful construction of a handsome city hall. Des Moines does not even own its water works, let alone its street railway, electric lights or power.

Where such a system is in vogue it might be quite feasible to elect certain men to the office of commissioner, allow them to do the duties of a councilman and obtain first class results.

That in communities such as Calgary or Edmonton, where the civic corporation has millions invested in utilities, the man who has the ability to get the most votes might be just exactly the wrong man for the office of overseer of these interests, and as a matter of fact it is quite conceivable that the man wanted for the job might not be a resident of the community at all—might be as far away as the other side of the continent at the time the elections were taking place.

Spokane, which is now applying to the Washington legislature for a change in its charter permitting the city to go on the commission basis, recognizes this by providing that one of its commissioners must be a qualified engineer with not less than six years experience in the state and that another must be a properly qualified and practising attorney doing business in the city. This arrangement, in a city like Spokane, which also owns nothing, although it is moving in the direction of acquiring some of its utilities, leaves only three of the five to a hap-hazard choice, and of these three one is the mayor, who by virtue of his office would be chairman of the commission and who might naturally be expected to side with the weight of technical knowledge.

For Calgary or Edmonton to undertake to select its commissioners by ballot and to place irrevocably in the hands of the men who happened to be so selected the control of utilities worth millions would be to take chances which no business corporation in the world would consider for a moment.

Calgary's experience with elected commissioners has so far been singularly fortunate, but that circumstance is no proof that it will continue to be so, any more than the accident of a good autocrat would prove that despotic government was the right method of government.

WHY NOT ABOLISH THE SENATE?

(From the Toronto Star)

Several of the leading Liberal papers in Canada are offering the opinion that the Senate at Ottawa should not be composed overwhelmingly of Liberals. They say with truth that if it was a bad thing in 1896 to have the second Chamber almost exclusively Conservative, it cannot be anything but bad to have the same Chamber almost exclusively Liberal in 1910.

It is rather late to make such protests, for the Senate is already almost exclusively Liberal in its membership. The few seats that remain in the company of Conservatives are scarcely worth worrying about. It has been pretty well shown that neither political party can operate the present appointive system over a period of years without producing the result that Sir John Macdonald brought about in 1896 and which Sir Wilfrid Laurier has paralleled in 1910.

It is all very well to moralize, but the fact is that to a political leader the time never comes when he can sit back in his chair and say that he has recovered a sufficient number of his political supporters with seats in the Senate, and will from that time onward favor his political adversaries with the choicest appointments within his gift. Were he to take that course he would presently find new adversaries bobbing up in unexpected places. It is not in human nature to operate satisfactorily the kind of Senate with which Canada is saddled.

The situation of 1896 convinced the Liberals throughout the country that the Senate should be ended or mended, and while leading men in the party may, by receiving appointments to the Upper Chamber, have experienced a change of view, we believe the bulk of Liberal opinion the country over has undergone no change. The Conservative party is now going through the same educative process that convinced the Liberals that the Senate as it stands is an unworkable body. We believe that it should be abolished, as, if it is made elective, it will acquire power, will duplicate authority, diffuse responsibility, and be, what every second chamber essentially is, an entrenchment for privilege and a means of defeating popular rule. A useless Senate is, after all, the safest of all Senates. Against its existence can only be urged the folly of supporting it.

OUR GOOD SHIP NIOBE

O my, O me, O Niobe,
Your plates must palpitate
With fear and wonder at the row
That you precipitate
But cheer up, valiant ship of war,
For Bourassa and Monk
Have roared at other ships before.
And none of them have sunk.

We know that Niobe of old,
From whom you get your name,
Was quite a luckless dame of Greece,
Of legendary fame,
She had a mighty family
(So says the old Who's Who),
And at her neighbor Leda scoffed
For mothing but two.

But Leto's sons grew big and strong—
Apollo—he was one—
And Artemis was scarce less tall;
And both swore by the sun
That Niobe should fumble head—
And show her entire brood.
And Niobe became a rock,
That's still with tears bedewed.

But do not fear, O Niobe,
Fair mother of our fleet.
That there's between this case and
your—

A parallel complete.
You have not boasted—not as yet—
About your progeny
Of gunboats that will grow into
An arrogant navy.

And if you did, O Niobe,
I please to remember this—
Apollo was no Bourassa
And Menck's no Artemis.
In other words, he grooves grout—
They're noisy but they're few,
The country quills, O Niobe,
And says: "Here's luck to you!"
—H. W. J., in Toronto Star Weekly

He Was Right

An old Irishman had been employed on the docks as watchman for thirty-five years. One night his son came home and told him that the superintendent of the docks had decided to get a new watchman.

"That's that? Get a new watchman is it?"
"That's it, old man."
"An' he's going to foire me, is he?"
"An' when an Oi to git me discharge?"
"Next month," replied the son.
"Sure, an' Oi could yee the furthest Oi want Oi work there it would be a kidding job, an Oi war wright!"
—Housekeeper.

True to Life

George Ade, at a dinner at Hazelton Farm, his Indiana residence, said of his two years' silence:

"You see, I am thinking up original and realistic ideas. And for my new heroine I've hit on a remarkably good thing. It's so simple and so true. It's a wonder it never occurred to Pinero or Heciw or somebody before."
"What is it?" a guest asked eagerly.

"My heroine," said Mr. Ade, "is a brunette in the first act and a blonde in the last."—Washington Star.

The Awkward Age

"Children under 3 and over 12 Half-price to 6d. and 4d. seats."—Adv. in Gloucestershire Echo.—Punch.

Reflections of a Bachelor

"Punishment stimulates the conscience most."

"A girl believes she can make a man love her by telling him she does."

"A widow gets along so well with men because she has learned how to control her real opinions of them."
"The great secret of keeping a motor car is how you can be out riding in it when creditors walk to the house to try to collect their bills."

After spending three days getting everything ready to make a window open without jarring, a man can always send for a carpenter to do it.—New York Times.

Marketing in Crimson Gulch

"What makes the butcher put both hands in the air? Is he afraid you are going to shoot?"

"No," answered Bronco Bob. "He has got over being afraid. He knows I ain't going to shoot as long as he keeps his hands out of reach of the scales while the meat's been weighed."—Washington Evening Star.

The Village Blacksmith

Under the spreading chestnut tree
The village smithy stands,
The smith, a lonely man is he,
For his shop is far other hands,
And before the door a puffing steam
Now oil and gas demands.
—Harper's Weekly.

HUDSON'S BAY COMPANY

The Great Traders of the Great West

LEAGUE WILL START SOON

Olympic Bowlers to Hold Organization Meeting on Thursday—Light Teams Will Enter

The recent Inter-City games have given bowling a great impetus in the city and attention is now directed to the Olympic League which will be re-organized this week.

It is the intention of Eddie Morris to try and confine it to eight 5-men teams as by so doing every team will bowl twice a week and every club will bowl three times. The prizes for the winning team, five handsome meerschaum pipes are on exhibition at the Olympic Bowling Alley.

The locals are quite enthused over their showing with Calgary. Edmonton won a "bore" in each city, though the Capital Exchange had the advantage when the grand total number of pins is considered.

In Mitchell, Leif and Scott, Calgary has three of the best players in the west and bowlers who have been bowling for ten or fifteen years. Fourteen years ago Leif was running an alley in Minnesota, so it can easily be seen that he is no tyro at the game. He sends down one of the prettiest deliveries ever seen in this city, an absolutely straight ball which is always in the groove and hits the king pin fair.

Mitchell and Leif will go to the city this winter for the Spokane tournament and should uphold Alberta's reputation.

The great majority of the Edmonton bowlers have hardly been at the game a year and a half, and deserve great credit for the speedy manner in which they have picked up the game. Eddie Morris says that at the end of this winter he will have a team that will hold up its end with anything in the West.

Strikes and Spares

A. C. Scarce, the new manager of the National Trust Co. was one of the leading Winnipeg bowlers and will play in the Olympic League.

Sam Schmetz will be missing until after Christmas. Sam is up to his neck with his numerous duties and will not be able to "spare" the time until the bells "strike" the New Year.

The Calgary score of 1000 set a new mark for the Olympic Alleys and also for Alberta.

The crowd on Saturday night was the largest that ever witnessed a bowling game in the city. And the roaring reminded one of Diamond Park with Calgary as the visiting team.

Leif says the Olympic Alleys are the best laid out in Canada. And he has seen them all.

When the local bowlers get a little more accustomed to match play and can forget the fatal nervousness, they will roll up the scores they do in scratch games.

*****SCALGARY RUGBY COMMENT*****

But the highest change was in the university team which has improved wonderfully. The team which began without knowledge of the game has made into a pretty good aggregation. This is particularly true of Parry, who has developed into a wonderful halfback. He is one of the speediest sprinters in the business and runs away repeatedly for long runs. The way it was very hard to get him. The other players were also very good. The things gave good protection to their halves, and Sells, by his punting and Parney, by his running practically won the game.

The Tigers played the same team as before, without a change. The outcome made several changes. Hardesty, the great, Tommy Dykes and Gibson, the captain, were all off duty on account of injuries in the game Thanksgiving Day. That caused a shift. A young person named McCarthy played at full back, another young person named Grant played at half, and Kennedy was on the wings of Parry.

The young men played well, and Edmonton may learn some day that the proper way to build up a team is by encouraging these young men. Doc Wilson did the heavy work behind the line, and did it very well.—The Albertan.

WHEN KLING PLAYED FOR \$5

It Was in 1894 and Even Then They Met Him With a Low-Necked Hack

The gloom in Mullville when the immortal Casey struck out was no heavier than the gloom that enshrouded the fans of Empora, Kas, during the first three games of the world's championship series between Chicago and Philadelphia. For Emporia was for Chicago, and the fans who gathered in the sample room of the Milt Way Hotel to get the returns of the game by wire, swore under their breath and wondered who or what led them to bet on the Cubs. Yet each one knew, and if you had asked why Emporia owed allegiance to Chicago some fan in the crowd would have volunteered to enlighten you in your extreme ignorance.

There it reposes in the cigar case in the hotel lobby. Just a tattered score book it appeared, but look closer and see the mystic word, "Kling." And that is the tie that holds the fans of a little inland town loyal to a city club of half a million miles away. Johnnie Kling played his first game of professional ball in Emporia; the score book holds proof of the name and Milt Whitlie, proprietor of the hotel, will recite the circumstances.

"When Kling Caught for \$5

"Kling was some catcher even on those days," the first sport of Emporia smiled at the remembrance, "I had seen him play with the Kansas City Schmecklers and knew he was a good boy. We had a hard game with Winfield scheduled for August 31, 1894, and I wrote to Kling offering him \$5 and railroad fare if he would come down and catch for us. The clubs in those days played no professional ball, and Kling has told me that I paid him the first real money for catching. The fans here berated me for being so extravagant, but when Kling came and they saw him in action they thought the expenditure of the \$5 was wise. He didn't show up. He did come once again, and we got our low-necked catch and drove him all the way from the Normal to Soden's Grove, where we played."

You might be able to get away from the hotel without hearing about the building of street car systems, commission form of government, racing greyhounds on good roads, a few of Mr. Whitlie's hobbies, but if you had started on baseball you probably would end there. September 9, 1894, Boston, Score, Portland 47, Tri-Mountain 42.

A Baseball of 1898.

The ball was given to Mr. Whitlie by John Waterhouse saw the game played on the Boston Common in 1898 and he has vivid memories of the match. The club of Portland, Me., challenged the Tri-Mountain club for the championship of New England, and the game ended in a defeat of the latter by five points.

THE HIGHER EDUCATION

Coated Haughton of Harvard perceived this last week on Soldiers' Field.

Dick Lewis, the substitute end, had gone a little stale, "What is the matter, Lewis," said the coach. "Have you broken training?"

"Oh, no, sir," said Lewis. "Been smoking or drinking?"

"Oh, I guess I know what is the matter with you. You must have been studying?"

Lewis bowed his head like a shamed-faced boy who has been caught about his fingers in the jam, and finally acknowledged that he had been doing a little "grinding."

Then the face of the mighty coach took on a stern look and Lewis quailed.

"Young man! Have you no regard for your college?"

OTTAWA WILL HAVE ALL THE OLD FAVORITES IN LINE

Bruce Ridpath, Kerr, Walsh, Lesueur, Stuart, Lake are Available. Johnson and Hyland are Dickering with Renfrew.

(Special to the Capital)

Ottawa, Nov. 5.—It's all over but the shouting, and the rugby fans of Eastern Canada are now counting the days until the Dominion championship final is pulled off between Varsity and the Tigers.

Saturday's matches resulted in a great upsetting of the hope that was being framed up, and with the overturning of the forecasts, the championships in both leagues are safely slated away and Hamilton's famous Tiger band will pose for their photos as Big Four title, while the Varsity students are eyeing about the Queen City campus with an additional roll to their trousers, significant of the fact that they have pulled down their second successive intercollegiate title.

Some Good Games Yet

It must not be inferred, however, that the football season has drawn to a close, far from it, for although the championships can only be shifted by a seeming miracle, half a dozen really good games are on the cards, and with the enthusiasts still warmed up to the excitement of the great fall game, promise is given of some rattling good sport before the snowy mantle chases the pigskin invaders.

Varsity has been practically sure of the college honors since they trimmed McGill in Montreal, but it was not until Saturday, that Bobby Ilesher's Jungle Terrors earned their undisputed right to the interprovincial honors, and the Ambitious City fourteen pulled the clamps on that headline when they went out and beat Chaucer Elliott's combination soundly, Ben Simpson's punting having a lot to do with the result. Ottawa lost to Arpa, but the game was such a poor exhibition that the score 11 to 4, was neither a criterion of the play or an illustration of the relative strength of the two teams.

Montreal's defeat throws the M. A. A. Squad back a few pegs and it would not surprise the writer if both Ottawa and Arpa beat the red and blue team out for the second and third honors. Elliott's aggregation have shown a lot, while Ottawa and the Scullers have advanced by high strides. The Big Four, this year, has shown much better football than last season and the close race has greatly increased the interest that has been taken in the schedule.

A GENEROUS GERMAN

Germany Schaefer received \$300 as his share of the receipts of the All-Stars-Athletic series in Philadelphia just before the world's series. He counted his wind in the lobby of a Philadelphia hotel, with a group of hungry-eyed bellhops watching him.

Chicago, Nov. 8.—Jack Johnson, world's heavyweight champion, with a \$20,000 guarantee offered, is likely to go to Paris to show some of the French and English fighters that there are a few kinks in the fight game, with which they are not yet familiar. Johnson has received a cable from Paris making the big offer, with round-trip transportation for four, and has started East to spend a couple of weeks in New York.

"I will be in England in April anyway," said Johnson, "so might as well skip over, collect the coin, and give the Parisians a glimpse of the real stuff. Just whom I meet is of little interest. I hope they uncover something classy; it would live things up."

New York, Nov. 8.—That Jack Johnson, the world's "champion," is not afraid of anything is indicated in the announcement that big color fight has been drafted by the Democrats as a campaign speaker, and that he will assail Col. Roosevelt as an enemy of the negro race.

Johnson is expected to hand out his finest line of oratorical aperçus and wrings will speak at several rallies here this week under the auspices of the United Colored Democracy upon the inclusive topic: "Roosevelt was not present to help the colored race at the Brownsville affair; now we aren't here to help Roosevelt."

Those who have been Johnson in previous political dissertations declare that he is a better speaker than automobile driver.

Another strange streak took hold of the McGill team, the Montreal students going to the bad completely, and losing two games in a row, one at home and another away, so that they will have to step some to beat Queen's for second honors. Ottawa College scored her first try of the year against the Varsity crew, but that was when the Toronto team were a couple of dozen points to the good. The garnet and grey fourteen have shown little class this year, and will have to strengthen a lot to cut any figure in the Intercollegiate.

College Will Stick

A story was current last week that Ottawa College would refuse to join the I. R. F. U. at the end of the season, but officers of the University vigorously deny the rumor, and state that they will remain in the league for many years yet. The story went on to state that Osgood Hall would replace the Ottawa team, but the addition of the law students to the league is possible any day, that institution holding an I. R. F. U. franchise, secured some years ago, but not used at the present time.

Trouble for Williams

Kid Smith, and Jack Williams are in the limelight as a result to the professional charges, and it would seem as if the Tiger half back will quit for the season as a result. He was not played against Montreal and the Hamilton executive are drilling Ben Simpson at centre half once more. Williams' case is not getting so much publicity, but there is only one step for the Governors of the Big Four to take, and that is to order a general investigation of the amateur status of every player in the league, and satisfy themselves that there is no money being handed out.

SKATING STARTS ON WEDNESDAY

There Will Be Ice at the Thistle on That Day—Live Chat on Local Hockey

With snow on the ground and a biting crispness in the air, the curlers and hockeyists are rummaging in dusty attics for rocks and hockey equipment and this week the roaring of the stane and the dashing of the puck against the sides will be heard on the city rinks.

Sawdust was put on the floor of the Thistle rink yesterday afternoon and the water turned on in the evening so with a continuance of this cold snap, Jimmy Fox promises skating on Wednesday night.

The curling surfaces at the Capital City and Granite Rinks are also being treated to a dose of H₂O and draws will soon be published in the local papers. The holding of the Royal Caledonian Bannock here this winter will give a great impetus to the game.

The annual meeting of the City Amateur Hockey League will be held this week and the schedule should be well in progress before Christmas.

If all the teams enter that are speaking of doing so, the executive will find it necessary to have two divisions.

The Y. M. C. A., Bankers and University of Alberta are certain starters. Then Queen's Avenue and J. H. Morris may retain their franchises while there is some talk of the Somerville Hardware Co., the Packing Plant and the I. C. A. A. entering competitors.

The Irish Association is holding a meeting in Mechanics' Hall on Wednesday at 8 o'clock when among other business, the question of entering a team in the City League will be discussed.

The Edmonton Hockey Club holds its general meeting in the Young Liberal Club on Wednesday at 8 o'clock to consider the advisability of proceeding with the organization of a semi-pro league. The annual reports will also be presented.

The University of Alberta is well-fixed for good keepers. The Collegians have Court May, last year with the High, Blayne of Queen's Ave. and Clark, the Strathcona star. Blayne will probably be used as a side forward as he showed well there in a few games.

Scraper McDonald, Parselle and McCarthy of the Edmonton rugby team may turn out with the Packing Plant team. McCarthy played good for Madoed last season, and the year before was in the nets for Ottawa II.

The Bankers, with Hum Aldous at the helm, should go a long way in the race. Waugh, who starred for the Morris Co. last winter will be found with the money changers.

Art McGinnon, who was the best amateur forward in Alberta last winter will play with the St. Mary's of Calgary this season. Mac showed up well in the Pitt Reform games against Prince Albert and has succeeded in getting his amateur card back.

Scotty McLeod and Charley Graben are the leaders of the hockey movement at the Somerville Co.

The meeting of the Alberta Amateur Hockey Association will be held at Red Deer on Nov. 22nd. Hockeyists on the black list are advised to get their applications for reinstatement in.

The sloughs around the city outskirts were covered with skaters on Sunday.

HAMILTON AND VARSITY, NOW. 19

Big Game for the Rugby Championship of Canada Takes Place on That Date

(Special to Capital)

Ottawa, Ont., Nov. 7, '10

Because of the feeling that has arisen in the National League over the new Ottawa professional hockey team the St. Patrick's, Horace Gaul, manager of the Saints says that his team will withdraw its application and that he will release all of his players. Gaul says that he was fully prepared to go ahead with the new club, having secured sufficient backing, but others thought different, and he has decided to drop out.

There is now talk of another Ottawa syndicate taking up the plan for a second Ottawa professional team, and purchasing the franchise of either Cobalt or Hamilton. This scheme is feasible now that the silver country teams have decided to slow up on the hockey question.

Tigers and Varsity will come together in Hamilton on Nov. 26th, according to Mr. J. H. Finn, secretary of the interprovincial football union who on Saturday was notified of the acceptance of the challenge of the Big Four for dates with the Canadian Rugby Union.

The deciding game for the Earl Grey cup, this year must take place on the grounds of the interprovincial winners and as Varsity has to play the O. R. F. U. winners before they clash with Tigers the Ambitious City fourteen will have to lay off a week.

It is understood that Ottawas and Hamilton will play an exhibition game in Hamilton on Nov. 19th, the Tiger management having asked Dr. Baird of the Ottawas for a game, earlier in the year. The break in the playing schedule when they have to wait for the Varsity—T. A. A. C. game would be filled to a nicety by an exhibition game with the Ottawas.

INDOOR EVENTS AT THE Y.M.C.A.

Local Athletes Will Prepare for the Annual Hexagon Contest in the Spring

Every spring a Hexagon Contest is held in connection with the different Y. M. C. A.'s in Canada. Each association holds its own competition on its own floor and the association making the highest score, in 6 events gets the championship cup.

During the next six weeks a series of events will be run every Wednesday at the local Y. M. C. A. in order that the men may get in shape for the Hexagon Contest.

The programme for the next six Wednesdays is:

Nov. 9th.—100 yds. dash, standing broad jump, 8 lb. shot put. Nov. 16th.—50 yds. dash, three standing broad jumps, 12 lb. shot put. Nov. 23rd.—Fence vault, 60 yd. potato race, 150 yd. dash. Nov. 30th.—Burning high jump, standing hop, stop and jump; 220 yd. potato race. Dec. 7th.—440 yd. potato race, standing high jump, two standing broad jumps. Dec. 14th.—220 yds. dash, 10 yd. shot put, standing broad jump.

HOCKEY AT SASKATOON

Saskatoon, Nov. 8.—T. C. Hare, last year manager of the Cobalt hockey team, is in Saskatoon and is promoting a septe of puck chasers for the University City this winter. The talk is for a new semi-professional league to take in Saskatoon, Edmonton, Calgary, Prince Albert, Battleford. A new rink is being built in the city to be completed in a couple of weeks and will have a seating capacity of 2,500.

Shiloh's Cure
Solely from Canada, cures colds, the throat and lungs. 25 cents.

STOP! LOOK!! LISTEN!!!

A Complete Pool Table for \$225

Webster's Clear Havana Cigars

(in 10 sizes.)

Superior in Quality. Uniform in Aroma.

Absolutely Clean and . . . HYGIENIC in Manufacture.

For Sale at all the Leading Cigar Stores.

"Capitol" Beer vs. "Budweiser"

We beg to inform our many patrons that we are using a temporary label for our "Capitol" Beer as an injunction has been granted by the Courts restraining us from using our original "Capitol" label pending our law suit with the Anheuser-Busch Brewing Association, of St. Louis, Mo. The quality of "Capitol" however will be just the same, or better if we can make it so; and judging from the demand we are sure that our patrons know from experience that it is the BEER and not the label that has made "Capitol" so widely popular.

The Edmonton Brewing and Malting Co. Ltd.

Wainwright

FOUR GOOD REASONS WHY Wainwright will make one of the Leading Cities of Western Canada
Investments in Wainwright Property will prove Highly Profitable

Trade Centre of Rich Farming District

WAINWRIGHT is situated on the Main Line of the Grand Trunk Pacific in Eastern Alberta. It is 127 miles east of Edmonton and 200 miles west of Saskatoon, and is easily the largest, busiest and best town between those points.

WAINWRIGHT is but two years old, yet it has 1,000 population, property assessed for taxation at \$750,000, half a mile of cement sidewalks, an \$18,000 brick school, two brick yards, substantial business blocks and residences, some of them constructed from home-made brick, two big hotels, and all the various lines of business that go to make up a live, bustling town.

WAINWRIGHT has tributary to it one of the finest farming districts in Alberta—a district especially adapted to grain growing, mixed farming and ranching. Of the 10,000 acres immediately tributary to the town, 50,000 acres are the choicest Alberta Red wheat land which produced an average of 22 bushels to the acre in 1910 against an average of 15 bushels for all Western Canada; 30,000 acres are suitable for mixed farming, and 20,000 acres are the finest grazing land on the continent.

WAINWRIGHT territory includes a portion of the famous Cat Knife country, admittedly one of the finest farming sections of all Canada. But a small percentage of the land has been broken up, but the yields of grains, vegetables and root crops have been enormous. Yields of 40 to 50 bushels of wheat and 75 to 90 bushels of oats are not uncommon, and the quality is the best. No finer potatoes are grown in the Dominion. The climate is tempered by the Japan Current, there is plenty of precipitation during the growing season, and the long summer days and hot sunshine are conducive to rapid growth of vegetation.

Distribution Point of many good Towns

WAINWRIGHT is rapidly achieving renown as a wholesale distributing point, and it is well known that it is distribution that makes cities. As a distribution centre, Wainwright is without a rival between Saskatoon and Edmonton. It enjoys a decided advantage over the latter point in through freight rates, an advantage which big concerns have been quick to realize.

WAINWRIGHT, although but two years old, is the distributing centre for four large concerns—the International Harvester Co., the Massey-Harris Co., the Imperial Oil Co., and A. McDonald & Co.—who use it as a base from which to supply the retail trade for a distance of 50 miles east and 70 miles west on the Main Line of the Grand Trunk Pacific.

WAINWRIGHT will be the head and operating base of the Battleford Branch of the G. T. P., to be built along the fertile valley of Battle River next year. This branch will tap one of the oldest and one of the richest agricultural sections of Alberta, and will make an important contribution to Wainwright's trade territory. The new towns that will spring up along this line will look to Wainwright for their supplies, and the products of this district will go to Wainwright to reach the Main Line of the G. T. P. for shipment to eastern and western markets.

WAINWRIGHT retail merchants will be enabled to buy goods as cheaply at home as they will in Edmonton, and by saving the local freight on them, will have a considerable advantage over competing towns.

Divisional Point of G. T. P. Ry.

WAINWRIGHT is one of the principal divisional points on the Grand Trunk Pacific Main Line. That the railroad company expected it to be an operating base of no little importance is evidenced by the fact that it located there a 12-stall roundhouse, repair shops, a \$25,000 depot and 14 miles of side tracks.

WAINWRIGHT has about 80 resident railway employees, and their monthly payroll is approximately \$7,000. Practically all of this money is paid to Wainwright merchants, or is put into Wainwright real estate and improvements. As traffic on the Main Line of the G. T. P. increases and with the opening up of the Battleford Branch, the force of resident railway employees will be largely increased.

WAINWRIGHT, being division headquarters, is the home of not only train crews, shopmen and trackmen, but of superintendent, roadmaster, foreman, dispatcher, clerks and other officials who command good salaries and are a substantial addition to the business and social life of a town. Many of these railroad employees have built good homes in Wainwright during the past year, and a large number of them are putting a portion of their earnings each month into Wainwright real estate as an investment.

WAINWRIGHT has a wide-awake, energetic class of business men who, through the local Board of Trade, are unceasing in their endeavours to advance the interests of the city. The city officials and councillors are men of the same stamp, and the permanent and substantial character of all public improvements show that they believe in the town and in providing for its inevitable growth in population.

Location of National Buffalo Park

WAINWRIGHT is the location of the Canadian Government's National Buffalo Park, largest herd of Buffalo in the world. This park, which adjoins the town on the south, contains 110,000 acres of fine grazing land, fenced with an 8-foot woven wire fence which alone cost \$75,000. In the park are upwards of 500 Buffalo, gathered together from various points, principally from the few remaining herds and groups in the States. Recently 250 wild in the press dispatches, a shipment of 50 head was received from Montana, where the entire Pablo herd, the largest on the continent, was purchased. The park contains also several moose, deer, and other animals.

WAINWRIGHT, because of its Buffalo Park and other points of interest to visitors, is destined to become one of the leading attractions for tourists on the continent. It has now the only remaining herd of bison west of the mountains. Under the conditions in the National Buffalo Park it is believed that the animals will multiply in numbers, and that as a result of the action of the Dominion government in establishing this park, the extinction of the North American Bison will be prevented.

WAINWRIGHT and the Buffalo Park will be featured in the advertising of the Grand Trunk Pacific, and in the literature of the Dominion government. With two such institutions as the greatest transcontinental railway on the continent and the Canadian Government back of it, there is little likelihood that the work will be allowed to overlook Wainwright.

Grand Trunk Pacific

Now Makes Its First Offering of Lots in Sub-Division Adjoining Original Townsite of Wainwright

Wainwright Has Never Been 'Boomed'

You do not remember having seen before any newspaper advertisements offering for sale lots in the Grand Trunk Pacific Townsite of Wainwright. It is a fact that this is the first time that the G. T. P. has undertaken to call the attention of the public especially to Wainwright. Nevertheless practically all of the original townsite laid out by the railroad has been sold, and for several months past the G. T. P. has been importuned to put this subdivision on the market, in order that additional desirable building sites close in and convenient to the school and the churches might be available.

Wainwright, like Topsy, "just grew." It grew because people who investigated it were convinced that it would be the site of an important city, therefore a good place to live in, a good place to transact business in, and a good place in which to make money on real estate investments. Not having had a boom, Wainwright has never had a backlash. It has grown steadily every month, is still growing, and will continue to grow.

During 1910 fully 100 buildings have been erected, among them being several modern frame and brick residences, costing up to \$5,500. In September, 25 buildings were in course of construction or under contract to be completed this year. Already many new buildings have been planned for next year. There is not a vacant house in town, and there is a demand for rental property of all kinds.

Russell Sage, who accumulated an immense fortune, said: "Real estate is an imperishable asset ever increasing in value. It is the most solid security that human ingenuity has ever devised. It is the basis of all security and about the only indisputable security."

Millions Made in New Towns

A hundred million dollars was made in 1910 by investors in town lots in Western Canada towns—not by people who thought about investing, but by those who actually invested. This enormous sum represents the increase in value of town property resulting from the growth of the towns and the development of the surrounding country.

At least a hundred millions more will be made in 1911 by those who invest in town lots—not by those who just think about investing, but by those who actually invest. You can pick out any of a score of Western Canada towns and they will point out to you lots which sold a few years ago at \$100 to \$300, which today are worth \$1,000 to \$10,000. Take any of these towns—Edmonton, Calgary, Regina, Moose Jaw, Saskatoon, Lethbridge, Brandon, Prince Albert. —fortunes have been made by scores who invested a few dollars in town lots when these towns were young.

There will be immense development in Western Canada in the next few years. It is a country capable of supporting many millions of people—a country of practically unlimited natural resources to be developed. These coming millions must have trade centres where they can market their products and from which they may draw their supplies. Scores of the towns of today will tomorrow be cities with thousands of inhabitants than they now have hundreds. Real estate values grow with population. There are fortunes awaiting those who buy now and participate in the advance.

Andrew Carnegie says in the "Empire of Business": "Ninety per cent. of all millionaires become so through growing real estate. More money has been made in real estate than from all industrial investments combined."

The Time to Buy for Big Profit

The time in the history of a new town to buy for big profit is before its permanency has been proved, and before it has reached the stage where its future growth is discounted in real estate values. The opportunities for the investor of moderate means do not exist now in Edmonton, Calgary, Moose Jaw, Regina, Saskatoon and such towns that existed a few years ago. They have reached the stage where their growth for years to come has been discounted, and where real estate values are based not alone on what they are, but on what they are expected to be.

In investing in a brand new town there is always the risk that it will not amount to much. The time to invest—the only safe and sure time—after the town has demonstrated that it has behind it forces which will insure its success, and before real estate prices are based on what the town promises to be, rather than on what it is.

Wainwright is just now at the stage when real estate values are based on the present, and when buyers can depend upon reaping the benefit of future growth. In a few weeks Wainwright will be one of the best known and most talked-of towns in Western Canada. Investors who have not hitherto had their attention called to it will be seeking investments there. Those who buy now will have the full benefit of the rush for lots which is sure to come soon.

The prices fixed on the lots in the new sub-division are low. The object is to build up the town, attract business men and merchants, mechanics and professional men and capitalists. The G. T. P. will reap its reward from the money received for these lots, but from the increased traffic which it will secure in and out of Wainwright.

Buy Now and Get First Choice

This advertisement marks the beginning of a series of public sales of the lots in the sub-division of investors throughout Canada and the States to Wainwright. Naturally the best that the G. T. P. has to offer at Wainwright is included in this sub-division.

THE FIRST SUB-DIVISION ADJOINING THE ORIGINAL G. T. P. TOWNSITE that has been offered. This sub-division immediately adjoins the original town, which is built right up to it. The new \$18,000 school house occupies a block right across the street from this sub-division. The school recently purchased for the site of a new Catholic church is right across the street from it.

Every lot in the addition lies well. The addition is high, overlooking the town, and practically level, open prairie. It is not necessary for purchasers to specify the particular lot or lots they desire. Wire your reservation, stating number of lots and price you wish to pay. We shall select the best lots for the price. We have a representative who is familiar with the grounds and the choice lots will be selected in the order in which applications are received.

If the selection of lots made by our representative is not satisfactory, the Grand Trunk Pacific stands ready to give you your choice of the remaining lots at the same price, or refund all your payments. **WE ADVISE THAT YOU DO NOT DELAY. BUY TELEGRAPH RESERVATION AT OUR EXPENSE.** Let remittance follow by next mail. In this way you will get the pick of the choice lots. A delay of a day may mean a difference of a block in the location of your lots.

INDICT RANCHERS FOR CRUEL PLOT

Nine True Bills Laid Bare Land Grabbing Conspiracy in Nebraska

SETTLERS DRIVEN AWAY

Attacked With Guns, Houses Wrecked and Sane Men Sent to Asylum

(Omaha, Neb., Nov. 8.—Indictment returned by the federal grand jury of Western Nebraska was made public today. The charge is conspiracy to drive from their claims at the points of guns homesteaders who took sections of semi-arid land under the Kinkaid homestead law.

Those indicted are Perry S. Yeast of Hyannis, Neb.; his son, Frank W. Yeast; Leslie E. Hallinger, M. C. Hubbel, Emil Anderson, William Z. Emerson, Harry Sutton, Boone B. Hawthorne, and Dr. Harry H. Huff. Dr. Huff and Sutton, who is county attorney of Garden county, are members of the insanity board. Yeast, one of the largest ranchers in the state, was convicted two years ago of fraudulently securing title to homestead land.

There are four counts in the indictment, and the specific overt acts mentioned indicate an unusual frontier condition.

According to the charges Yeast and his associates carried their efforts so far as to bring about the incarceration in the insane asylum at Hastings, Neb., of one of their alleged victims.

Homesteaders Were Intimidated.

When the Kinkaid law was passed many persons went to Grant, Banner, Garden, Chaffee, and other western Nebraska counties and looked up quarter sections. The land is in the sand hills country, but contains many fertile valleys. Several big ranchers, among them Yeast and his associates, have depended on this valley land for their hay or winter feeding, and the settling of homesteaders was resented. The indictment charges that a band of about thirty persons, headed by Yeast, went to the houses of many of these homesteaders, among them Cashier J. Davasher, George Carpenter, Golha D. Graves, George Balcock, Henry S. Condon, and others, and by intimidation and threats of taking their families, forced them to leave their claims.

The specific case of Davasher is mentioned in detail. It is charged that Yeast and the other defendants, accompanied by a band of cowboys, visited Davasher and, after threatening himself and family with death if they did not leave the country, destroyed his home, broke up his machinery, cut his farness to pieces, and in other ways mistreated him. Later, according to the indictment, Yeast conspired with members of the county insanity board and obtained Davasher's incarceration in the asylum.

Railroaded to an Asylum.

The insanity commissioners, it is alleged, went through a mock examination, declared Davasher insane, and issued a warrant for him. This was served on the spot and within an hour he was rushed off to the asylum with no counsel.

According to an official of the insanity department, the present indictment covers one of the most remarkable attempts at land grabbing which has recently been brought to the attention of the department. A letter written by one of the victims to President Taft is said to have caused the investigation.

AT THE THEATRES

The Law of the West. In the shadow of the cascade Jim Dalton, a prospector, and his Indian wife come upon a gold deposit. Elated with the reward of many a hard day's search Dalton returns to his wife with the good news, leaving his partner in charge. On his way he passes two claim jumpers and accidentally drops a nugget near them. With this clue they look up the claim and, overpowering the Indian, they throw him into the raging current. Dalton, and his family return to the gold, find only while the other-first registers and then sells the claim. Soos the two Indians quarrel over their ill-gotten gains and one is killed. Meanwhile the Indian has recovered and goes to the camp to claim justice. The law of the west takes its unforgiving course punishing wickedness and aiding right. The powerful story, staged among the glories of the far north and a magnificent picture of our own great Western Starland last night, which will be shown tonight for the last time.

INFORMATION COUPON

(Wainwright Dept.)
International Securities Co.,
644 Somerset Building, Winnipeg, Man.

Please forward to me by return mail full particulars regarding the sale of town lots in the subdivision to the original townsite of Wainwright, which is just being placed on the market.

Name _____
Address _____

Information for Purchasers

Main Street lots are 50x130 feet. Inside lots on Main Street, \$125; corners \$150. Other lots 50x140 feet. Inside lots \$75 and \$100; corners \$100 and \$125.

Send 10 per cent. of price with application; remainder in nine monthly payments.

Be Sure to mention WAINWRIGHT in your Telegrams and letters relating to these Lots.

APPLICATION BLANK FOR PURCHASE OF WAINWRIGHT LOTS

Land Commissioner, Grand Trunk Pacific Railway Co.,
Somerset Building, Winnipeg, Man.

I hereby make application to purchase _____ lots at the price of \$_____, each, and enclose herewith remittance for \$_____, being one-tenth of the total purchase price. I agree to remit the same amount each successive month by registered mail.

I desire your representative to select for me, out of the sub-division which you have just placed on the market to the original townsite of Wainwright, what he regards as the best lots remaining unsold. Name _____
Address _____

Land Commissioner, Grand Trunk Pacific, Winnipeg, Manitoba.

U. S. ELECTIONS.
(Continued from Page One.)

latures will be elected through the country to insure a majority in the Senate.

An Even Break

The insurgent movement, which manifested itself so much in the last session of Congress, does not appear to have spread with any great rapidity. From returns from a number of the States where this movement flourishes, the insurgents and regulars seem to have broken about even. Kansas and Idaho are the two exceptions. The insurgents in these States seem to have complete control of the situation. In Iowa, however, there is a strong fight, and where the Republican regulars gained the nominations the insurgents have placed independent candidates in the field. Minnesota, Wisconsin and Indiana are wholly insurgent, while the movement is strong in Washington, Oregon and California. The leaders feel confident, however, when the returns are counted on election day they will show a balance in favor of the Republicans, whether regular or insurgent.

Bitter in Pivotal States

In the so-called pivotal States the campaign has been exceedingly bitter. In the election to be held on Tuesday, twenty-eight States in the Union will select State Legislatures. The Democrats will make a vigorous fight to get a majority of the State Legislatures in order to insure a majority in the Senate in the next Congress. At the present time there is a Republican majority of twenty-six in the Upper House. Thirty-one terms expire this year, and the new State Legislatures will select successors when they convene in January. Of the thirty-one whose terms expire, twenty-four are Republican.

Prohibitionists Hopeful

The Prohibitionists have hopes of success in twenty-five States—California, Colorado, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Texas, Utah, and Wisconsin.

In addition they will bring their fight before several States in the form of Constitutional amendments. In Florida the electors will vote on Pro-

hibition "forever" in the State, the manufacture sale, exchange, or barter of all intoxicating liquors, except for special purposes as medical or scientific necessities, to be effective from July 1, 1911. In Missouri, on the petition of 55,000 voters, an equally strong proposal will be submitted to the people. It is an attempt to retrieve the defeat of statutory prohibition and a prohibition amendment by the last Legislature. In Oregon the initiative has also brought up the question.

Specialist tickets have been nominated in thirty-four States.

Jack Potters in Illinois

In Illinois the fight is on between the regulars who are accused of being "jackpotters" and the insurgents who are charged with being willing to sacrifice the party interests to their own.

The Democrats hope to profit by the dissension to bring about a landslide in their favor. Only today's vote will tell.

In Indiana conditions are very favorable to the Democrats who now have eleven out of thirteen congressmen, but the Republicans confidently expect a change at the elections to day. Indiana is electing members for the legislature who will choose a senator and thirteen congressmen.

The only outstanding plank of the issue is the county option bill introduced by Gov. J. Frank Hanley.

In Iowa the elections are for state legislative, and county officials. Twenty-two of the twenty-eight hold-over senators are Republicans, but this is no certain indication of the result. The "liquor" question is raised here, too, by the promise of Gov. Carroll to introduce a bill for Municipal Option. In Kentucky the Democrats are high in favor, particularly in the stand of Floyd Byrd, one of their number against the feuds. There seems no question of the state going practically Democratic.

Exhibition a Factor

In Louisiana the main question is that of the Panama Exhibition. A proposition is being put before the voters to provide for its financing by an issue of bonds. The vote for congressmen will probably go Democratic. In Michigan almost all posts are empty and require to be filled. The insurgent movement has gained considerable strength and displays itself in the strong feeling against the mine owners and Chas. S. Osborn supported of being their candidate for govern-

nor. Hence the Democrats are for the first time in years full of confidence. In Minnesota the elections being held today for nine congressmen, a full state ticket, and a senator, are being waged on the county option issue. Gov. Eberhard has refused support to the temperance party. James Gray, the Democratic candidate, is on out-and-out county option man.

The fight has been badly interrupted by the outbreak of recent fires. Gov. Eberhard cancelled his tour and hastened to the scene of devastation with supplies and relief of all kinds.

New York Is Centre

The interest in the election centers in New York State, where Theodore Roosevelt has taken a hand in the selection of Governor. He has backed Gov. Simpson who, the opposing candidate claim will be but a tool of Roosevelt's hands and further his political ambitions.

There are in the field here no less than six parties and the fight is correspondingly bitter. At present the State is largely Republican and unless the insurgent movement gains strength there seems no reason for believing that it will change.

In other New England States the Republicans still now supreme are almost as confident as ever. In New Jersey, however, Woodrow Wilson, ex-president of Princeton is waging a vigorous campaign against Vivian Lewis, representative of the regular Republicans. Connecticut and Massachusetts are in about the same position.

Maryland Divides on Tariff

Six congressmen are the only officials to be elected this year in Maryland. Three Democrats and three Republicans are in the house but local dissatisfaction may affect the results. The Republicans are with "Tat," but the Democrats are making the Payne-Aldrich tariff, the issue. The Democrats are likely to gain four of the six seats.

No Opposition in Mississippi

Primary nomination being equal to an election in Mississippi little interest is manifested. There is no opposition, and it is likely that the Democrats will be elected.

Liquor Question in New Hampshire New Hampshire will elect a governor, two representatives and a legislature. The revision of the constitution and the liquor question will be the issues. The Republicans are in the majority, but the Democrats claim

a fighting chance for the Governor and one congressman.

Five Tickets in Nebraska

Nebraska will elect a new list all the way through from the Governor down. There are five tickets in the field—Republican, Democratic, Populist, Socialist and Prohibition. The Democratic and Populist nominee are identical. The Prohibition and Socialist tickets are indistinguishable. Chances favor the Republican getting one seat in Congress.

New State Ticket in Ohio

Ohio is in the midst of an exciting election of an entire state ticket and legislators and twenty-one congressmen. A new senator is to be named instead of Charles Dick, of Akron. Graft in State departments will be the centre of the fight. The proportion is usually fifteen of Republican to six Democrats. This year the Republicans do not expect more than thirteen congressmen.

No Change in Pennsylvania

Pennsylvania will elect a governor, lieutenant-governor, secretary of internal affairs, and state treasurer, thirty-two congressmen and twenty-five of fifty state senators and a full membership of the state house of representatives. The present indications are that the complexion of the election will not be changed though the Republican majority may be reduced. The issues of the campaign are the honest administration of the state's finances towards charitable institutions, a new educational code, reduction of state taxes, and good roads.

Two congressmen are to be elected in Rhode Island as well as a U. S. Senator to succeed W. W. Aldrich. Both parties say that they will win the election.

Women's Rights in Dakota

A full ticket from governor down will be elected in South Dakota. An amendment to the constitution granting woman's suffrage is the chief issue. The Democrats are conducting their first fight on the charge that the Republican administration is extravagant.

"Wet" or "Dry" in Utah

The Democratic platform in Utah is state wide prohibition, the Republicans for local option so the citizens will vote under "wet" or "dry" conditions. The "American" party opposing Mormonism is in Utah and will fight

for the supremacy. The Democrats claim the Legislature will be hostile to the Republicans.

Quiet Elections in Virginia.

In Virginia the only political situation are in the two congressional districts Fifth and Ninth. These may go to the Republicans with the other eight going to the Democrats.

In West Virginia the Democrats hope to turn the tables owing to a split in the Republican party. The Republican party admit of the possibility of defeat next month for eighteen years the majority had always been Republican.

Petty Graft Issue in Wyoming.

The outcome of the campaign is doubtful. The principle issue is around the alleged squandering of money belonging to the state by the Republicans. The election of a governor will probably elect a majority of the state legislature.

Four Part Ticket in Colorado.

The state will elect in Colorado a governor, lieutenant-governor, secretary of state, treasurer, auditor railroad commissioners, eighteen members of the state senate and a new house of representatives, as well as a number of other posts. The ticket is in four parts—the political complexion of the Supreme bench by the election of the successor to the late chief justice. Two Republican candidates have made statements against Cannonism and have been approved by the Republican state chairman. The great fight against constitutional amendment giving the initiative and referendum and the legislative fight which is a preliminary battle for the United States senatorship.

Alabama is going in strong for Prohibition.

The Republicans have won two tickets in the field "Progressive" and "Regular" the insurgent movement having struck it. Only in the Seventh district are the Republicans showing any strength.

Florida is Democratic.

The Democratic nominees will go in without opposition in Florida. Prohibition is dividing the state. Three constitutional amendments will also be voted on.

Georgia Follows Florida.

Members of Congress will only be elected in Georgia, the legislature having been chosen in October. Ten of the congressmen will be Democrats and the eleventh will probably be one also.

WOMAN GIVES \$2000 FARM IN SWINDLE FOR \$3 FIDDLER

Mrs. J. M. Lightner of Paris, Mo., De-frauded by Man Representing Himself as Lyon & Healy's Agent.

Chicago, Nov. 8.—Carrying a carefully wrapped bundle in both arms and mumbling excitedly to herself, "I've got it," a little old woman stepped nervously into the visiting department of Lyon & Healy Tuesday.

Five minutes later she was carried to a car, moaning hysterically. What she believed to be a genuine Hopi violin, an almost priceless instrument, procured by a fiddler not worth \$2. She had been swindled, she said, out of her home, a farm worth \$2000, bought with her life's savings.

The woman was Mrs. J. M. Lightner of Paris, Mo. She told a pathetic story to the officers of the piano house. Early in July, she said, she was approached by a man giving the name of N. M. Ewing, representing himself as an agent of Lyon & Healy. He said that he was searching for a rare Hopi violin for which he asserted the company would pay \$2000. A confederate giving the name of Price then appeared in Missouri, Mo., with the instrument and Mrs. Lightner hunted him up and bought the violin.

"I had to go twenty-four miles to find Mr. Price," wrote Mrs. Lightner in a letter to Lyon & Healy. "He had heard that the violin was very valuable and I had to pay him \$2000 for it. I didn't have that much money and decided over my farm to him."

Ewing never called at the Lightner home to buy the instrument. The victim became suspicious and wrote Lyon & Healy on Aug. 27, making inquiry about the agent and asking what price would be given for the violin. A reply was sent stating that no such person as N. M. Ewing was in the employ of the company. Then Mrs. Lightner was also notified that it would be necessary to see the violin before any price could be made.

After learning how she had been swindled Mrs. Lightner took the first train for home. The case has been put in the hands of the police.

Women

If a woman can cry becomingly, other women will say her grief is not sincere.—Nicholson Globe.

CHANGE THE COLOR

A new design has been decided on by the city commissioners for the next issue of street car tickets. The present red tickets or those that sell for 25 cents, will be of a different shade of red, while the word "Edmonton" will be printed across them in white letters. The blue or lake tickets will also be of a different shade, while "Edmonton" will be inscribed in contrasting color. The commissioners have asked Southam, Ltd., of Montreal, to quote prices on 3,000,000 red and 500,000 lake tickets.

Waves of Water.

Slow rivers are those which flow at the rate of three to seven miles per hour. The largest gulf in the world is the gulf of Mexico—80,000 square miles—almost twice as big as the bay of Biscaya. Investigation shows that the waves of the Atlantic are probably higher than those of any other body of water. The waves of the Gulf of Mexico are much higher from the shore than those of the Atlantic.

We ask that you give us a fair trial, and be sure that you can make us a satisfied customer. The Edmonton Drug Co., Ltd.

Whooping Cough
CROUP ASTHMA COUGHS
BRONCHITIS CATARRH
Vapo-Resolene
ESTABLISHED 1877
A simple, safe and effective treatment for bronchitis, whooping cough, croup, asthma, catarrh of the throat and lungs, and all the ailments of the respiratory system. It is a powerful expectorant, and loosens the mucus, thus relieving the patient. It is also a powerful antiseptic, and kills the germs. It is a powerful sedative, and soothes the inflamed tissues. It is a powerful stimulant, and increases the action of the lungs. It is a powerful tonic, and strengthens the system. It is a powerful anesthetic, and relieves the pain. It is a powerful emetic, and induces vomiting. It is a powerful cathartic, and induces evacuation. It is a powerful diaphoretic, and induces perspiration. It is a powerful diuretic, and induces urination. It is a powerful laxative, and induces defecation. It is a powerful antacid, and neutralizes the acids. It is a powerful antispasmodic, and relieves the spasms. It is a powerful antineuralgic, and relieves the neuralgia. It is a powerful antirheumatic, and relieves the rheumatism. It is a powerful anticonvulsant, and relieves the convulsions. It is a powerful antiepileptic, and relieves the epilepsy. It is a powerful anticholic, and relieves the cholera. It is a powerful antivenereal, and relieves the venereal disease. It is a powerful antisyphilitic, and relieves the syphilis. It is a powerful antgonorrheal, and relieves the gonorrhea. It is a powerful antleucorrhoeal, and relieves the leucorrhoea. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. It is a powerful antgalactagogue, and relieves the galactagogue pain. It is a powerful antemmenstrual, and relieves the emmenstrual pain. It is a powerful antmenstrual, and relieves the menstrual pain. It is a powerful antparturient, and relieves the parturient pain. It is a powerful antlactant, and relieves the lactant pain. —
Burdock Blood Bitters
Cured Them.**

Mrs. John H. King, Johnston, N.B.,
writes:—"Last summer I was very much

A friend advised me to take Burdock Blood Bitters. I got three bottles, and before I had taken the last one my troubles began to go away. I had just taken a few doses out of the last one when they all disappeared. My husband has also used Burdock Blood Bitters with much benefit."

Bills in themselves are not a dangerous trouble, but still, at the same time, are very painful. They are caused entirely by bad blood, and to get rid of them it is necessary to put the blood in good condition, and for this purpose there is nothing to equal that old and tried remedy, Burdock Blood Bitters.

Manufactured only by The T. Milburn & Co., Limited, Toronto, Ont.

Philadelphia, Pa., Nov. 8.—Henry C. White, a reclusé who died on Oct. 26 last, practically his entire estate, valued at about \$100,000, to his coachman Joseph B. Corbett, "as a reward for long and faithful service." The coachman had refused many offers to leave the White estates and receive much more money as a chauffeur.

Corbett receives a fine residence in the elite portion of the city, a stable upon which there is a \$5,000 mortgage, but which Mr. White directed should be paid by his executor; several horses, and several fine carriages.

In addition Mr. White directs his executors to give Corbett \$2,000 out of right and to place aside enough to

which shall be \$1,200 a year, which Corbett is to receive.

AFTER 7 YEARS LEARNS CHILD HE THOUGHT HIS IS ADOPTED

Wife of Kansas City Traveling Man Tells Court She Substituted Waif

Kansas City, Mr., Nov. 8.—After believing for seven years that Marilda Fuller was his daughter Julius R. Fuller learned in court today that the child was adopted. A week ago Mr. Fuller's wife asked a divorce charging nonsupport. Mr. Fuller followed up with a petition to have the decree set aside and asking possession of the child.

"The child you understand," Mrs.

"That's not the case," said the husband. "It's our child. It was born to us in St. Louis seven years ago."

"It was born seven years ago," Mr. Fuller explained, "but it is not our child. Our baby died. Mr. Fuller is a traveling salesman. While he was on the road the baby was born and died. I grieved so that finally I decided to adopt a baby that was born in the hospital that same day."

"That's a new one on me," Fuller said. "I don't believe the story. I want the baby."

Judge Thomas set a date for hearing evidence in the case.

ABOUT TOWN.

Tomorrow afternoon a meeting of a local council of women will be held in the Collegiate Institute, Strathcona.

The members of last year's similar club are requested to meet at the residence of Mr. A. Taylor, 429 Fourth street on Wednesday afternoon at 5 o'clock for the purpose of re-organizing for the coming winter.

The meeting of the Maritime club to have been held tonight has been postponed owing to the inability of R. B. Bennett to be present. Mr. Bennett was to have given a lecture on Joseph Howe, but owing to pressure of business the lecture had to be deferred. He will however, give the same lecture on the evening of Tuesday, Nov. 15th.

COMING SESSION

(Continued from page 1)

member-elect for McLeod; James R. Glendinning, Winton; George I. Smith, Camrose; and Edward McEachern, Red Deer, who has been mentioned as a possibility for the leadership of the Conservative party; all of whom will stay at the King Edward.

This morning Speaker Fisher had a conference with Premier Sifton when the programme for the session was gone over.

A legal point is involved in the settling of the question of fees in connection with the private legislation contained in the agenda of last session, but which did not come before the house. It was stated in a local contemporary last night that all such measures would be treated as new legislation and that fees would have to be paid over again. However, the legislature will decide the matter and the probability is that a re-payment of the fees will be demanded and then refused.

All the ministers are in the city. Hon. A. J. McLean having arrived from the south yesterday. Hon. Duncan Marshall is at present confined to his home on account of a cold, but it is expected that he will be in his seat at the opening of the legislature.

Shiloh's Cure
quickly stops coughs, cures colds, hoarseness, throat and lungs. 25 cents.

er was ready to compromise on the Irish question on that basis.

Deprive Redmond of Power.
The details of local government for Scotland, Wales and England must be worked out next year at the convention. Meanwhile the constitutional questions will be left in abeyance in parliament, and by mutual agreement between both parties Mr. Redmond will be deprived of all power to embarrass the government. The Unionists, if necessary, voting with the cabinet. Mr. Redmond has vacillated so frequently since he has been in America that his real position is not understood here by anybody. But according to a dispatch from Albany published in today's papers, he demands some rule similar to that enjoyed by the independent colonies. Should he attempt to press this demand when parliament re-assembles he will meet the combined opposition of the Liberals and Unionists.

Offer your best inducements to farmers from the Old Country to settle. I am a resident of Edmonton for several years and have witnessed its progress, which should talk for itself to people in the old country. Write Box A, Capital.

A Choir Concert.

The choir of the First Presbyterian church are holding another of their very interesting concerts in the First Presbyterian church next Monday night, the 14th inst., under the leadership of Capt. Watts, the organist. The concert will commence at eight o'clock a very delightful and enjoyable evening. Amongst the soloists are to be found such well known singers as the Misses Seymour and Ethel Webster, Messrs. G. L. Snellie, E. Butterworth, C. McGregor, T. Heathcote, whilst H. Bewley Stevens will give one of his interesting readings by Longfellow, entitled "The Legend Beautiful" with an organ obbligato by Capt. Watts.

'SCONA WANTS LIBRARY

Petition Has Already Been Signed by Ten Per Cent. of Citizens.

A petition has been circulated in Strathcona and has already received the signature of ten per cent of the ratepayers of Strathcona to be submitted probably to tonight's regular meeting of the council, requesting the submission of a by-law providing for the building of a library. The library committee, appointed by the city council has corresponded with Mr. Carnegie on this point but of course can take no definite action. The condition of a Carnegie grant in accordance with which libraries have been built in Eastern Canada is that the municipality shall provide a free site and ten per cent of Mr. Carnegie's donation, by way of yearly maintenance. If the by-law providing this necessary amount is passed there is every reason to believe that a library will in the near future be built and equipped on the city hall property.
